CERTIFICATE OF SURVEY:

I hereby certify to the parties named hereon that we have surveyed a parcel of land within:

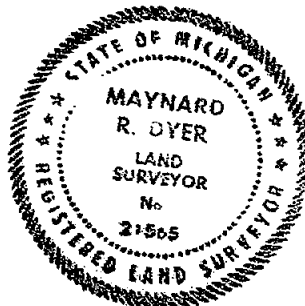

A part of the Fractional North 1/2 of Section 7, T1N, R1E,
 Bunker Hill Township, Ingham County, Michigan;

and that we have found or set, as noted hereon, permanent markers to all corners and angle points of the boundary of the parcel shown hereon as it is apparently peacefully occupied at present and that the more particular legal description of said parcel is as designated hereon.

This survey complies with the requirements of P.A. 132 of 1970.

This survey was performed with an error of closure no greater than a ratio of 1 in 5000.

CERTIFICATE OF SURVEY

CERTIFICATE OF SURVEY:

I hereby certify to the party named hereon, that I have, at his direction, cut out five parcels of land from within:

The North 1/2 of fractional Section 7, except the North 60 acres thereof, also the North 25 acres of the South 1/2 of said fractional Section 7, lying North of Scofield Road, T1N, R1E, Bunkerhill Township, Ingham County, Michigan, subject to easements, rights of way and restrictions of record.

and that I have found or set, as noted hereon, permanent markers at all corners and angle points of the boundary of these parcels; that the centerline alignment for the right of way of Scofield Road was determined by a found boatspike at the intersection of Scofield and Meridian Roads, a found 1/2 inch bar and cap LS 21275 accepted to be the NW corner of the most westerly of three one acre parcels previously cut out from this land and centerline alignment data determined by the Ingham County Road Commission in January 1934, ICRC File No. 180-A and that I disregarded the 08' RT deflection in the road surface shown at Sta. 80+87.8 of that data; that the alignment as determined is in close accord with found irons believed to have been set per a survey recorded in Liber 1 Page 614 and the physical centerline of the Scofield Road pavement; that I believe that three one acre parcels previously cut out from this parent parcel were described by relation to a fence line marking the apparent location of the West line of this Section which I found to be about 11 feet West of the Section line; that I accepted the location and direction of the West line of the westmost of these one acre parcels as monumented for the present owners of that parcel by LS 21275, whose irons I found to be at approximately 465 feet East of the fence line and at approximately right angles to the centerline of Scofield Road and which are in close accord with found large pinched pipes, which I believe to have been set by a surveyor, although not a surveyor creating these parcels; and that I established other needed lines of these excepted parcels parallel with said West line and aforescribed road centerline and at the deeded dimensions of the one acre parcels; and that concise descriptions of the five parcels surveyed are given hereon.

This survey complies with the requirements of Act 132 of P.A. 1970.

This survey was performed with a ratio of closure on the unadjusted field observations of 1 in 5000.

CERTIFICATE OF SURVEY

I hereby certify to the party named hereon, that I have, at his direction, surveyed and cut out two parcels of land from within the:

The North 1/2 of fractional Section 7, except the North 60 acres thereof, also the North 25 acres of the South 1/2 of said fractional Section 7, lying North of Scofield Road, T1N, R1E, Bunkerhill Township, Ingham County, Michigan, subject to easements, rights of way and restrictions of record.

that we set the corner markers for these parcels on August 5, 1993; that the centerline alignment for Scofield Road used is as previously determined by me for a survey recorded Liber 1 Pages 447 - 454; that I made the north line of Parcel H coincident with an old fence as defined by cornerpost with wire to the north, south and east at the NW corner of the parent parcel and by the location shown in a survey recorded in Liber 3 Page 1008 at the NE corner (shown to be in line with old fence to west); that permanent markers are at all corners and angle points of the boundaries of these parcels; and that concise descriptions of each of the parcels are given hereon and that a wood deck around a tree and a wood split rail fence encroaches onto Parcel H from the adjoiner to the north and that an electric service pole serving the adjoiner to the north is on Parcel H, as shown on the detail drawing on Sheet 2.

This survey complies with the requirements of Act 132 of P.A. 1970. This survey was performed with a ratio of closure on the unadjusted field observations of 1 in 5000.

DESCRIPTION

Parcel of land in Section 7, TIN, R1E, Township of Bunkerhill, described as commencing at NE Corner of Section 7; thence South along East line of Section 7, 978.28 feet to p.o.b.; thence South continuing along said East line 231 feet; S 89 deg. 14' W 366.35 feet; thence North parallel to East line Section 7, 231 feet; N 89 deg. 14' E 366.35 feet to East line of said section and p.o.b.

The basis of bearing for this survey is based on the bearings in the legal description.

I hereby certify that I have surveyed and mapped the land above platted and/or described on November 10, 1995, and that the ratio of closure on the unadjusted field observations of such survey was 1/15,000, and that all of the requirements of P.A. 132, 1970 have been complied with.
