B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

   Search apparent location for corner. Found three iron in the centerline of Ilsoco Road (gravel): A 1/8" pipe, with square head (bent - replaced with 1/2" iron rod), which is 5.10 feet West of a Found Iron Bar. This Found Iron Bar was found to be 5.05' West of a Found Iron Rod with a smashed cap. A 12" Clay CMP Culvert runs underneath center iron. Excavated all three points to 2.0 feet and hit baseball sized rocks beneath Easterly and Westerly points. At location of center point, hit top of culvert at 2.0 feet. No additional evidence was located. Found multiple witnesses. Analysis of witness and distances to adjoining Government Corners clearly show that the center point is a perpetuation of the boat spike set by the Ingham County Road Commission set prior to 1969 and that point is the continuation of the post located by Deputy County Surveyor by a west point (Found Iron Bar) with 3/4" x 24" rebar with 2-1/2" aluminum cap marked PA 345 INGHAM COUNTY and stamped PS 47999, 2005 measurement to adjoining Government Corners: L5-K5 = 2599.91', L5 - L4 = 2616.85', L5 - M5 = 2597.51', L5 - L6 = 2639.66'
