SURVEY OF HAINES DRAIN.

Survey of Haines Drain, located upon section 24, Town 1 north, Range 2 west (Onondaga township, Ingham county) and sections 7, 18, and 19, Town 1 north, Range 1 west (Leslie, Ingham county) Meridian of Michigan, and described as follows, to wit:

Commencing at the outlet of said Drain in the East Onondaga Drain, upon the south one-half (1/2) of northeast one-fourth (1/4) of said Section 24, George C. Ramsey and Lottie Ramsey, joint owners, at a point 1.88 chains east and 35 links south of the northwest corner of said land, thence north 82° 1/2' e 59 links to the north line of said land, at a point 2.42 chains east of the northwest corner thereof.

Thence north 89° 1/2' e upon the line between the above described land, owned by George C. and Lottie Ramsey, and the north one-half (1/2) of the northeast one-fourth (1/4) of said section 24, Ervin Johnson owner, 8.48 chains.

Thence wholly upon the last above described land, owned by Ervin Johnson, north 49° 1/2' e 3.44 chains, thence a 87° 1/2' e 1.52 chains, thence south 75° 1/2' e 1.90 chains, thence south 87° 1/2' e 2.46 chains, to the south line of said land at a point 18.51 chains east of the southwest corner thereof. Total length of drain wholly upon said land is 9.32 chains.

Thence upon the aforesaid south one-half (1/2) of the northeast one-fourth (1/4) of Section 24, George C. Ramsey and Lottie Ramsey, joint owners, south 47° 1/2' e 9.31 chains, thence south 75° 1/2' e 3.67 chains, thence north 44° 1/2' e 3.34 chains, thence north 48° 1/2' e 1.72 chains, thence south 83° 1/2' e 5.60 chains, thence south 89° 1/2' e 42 links to the east line of said land and range line at a point 6.64 chains south of the northeast corner of said land. Total length of drain wholly upon said land is 24.08 chains.

Thence upon the west fractional one-half (1/2) of the northwest fractional one-fourth (1/4) of said Section 19, less a parcel 80 rods east and west by 20 rods north and south out of the northwest corner thereof, Charles W. Harlow, owner. South 26° 1/2' e 27 links, thence north 47° e 4.79 chains, thence north 68° 1/2' e 16.52 chains to a point of curve, thence curve to the left (radius 1.33 chs) 2.12 chs, thence north 3.58 chs, thence north 22° w 7.48 chains, thence north 2.11 chains to the north line of said land and section line at a point 2.77 chains west of the northeast corner of said land. Total length of drain upon said land is 34.43 chs.

Thence upon the west fractional one-half (1/2) of the southwest fractional one-fourth (1/4) of said Section 18, Marion J. Jones, owner. North 21 links, thence north 89° 1/2' e 2.77 chains to the east line of said land at a point 25 links north of the southeast corner thereof. Total length of drain upon said land is 2.93 chains.

Thence upon the west one-half (1/2) of east one-half (1/2) of southwest fractional one-fourth (1/4) of said Section 18, Aaron J. Rayner owner. North 89° 1/2' e 92 links to point of curve, thence curve to the left (radius 65 links) 1.02 chains to point of tangent, thence north 44° 1/2' e 6.50 chains, thence north 48° 1/2' e 2.23 chains, thence north 89° 1/2' e 4.70 chains, thence north 31° 1/2' e 6.21 chains, thence north 60° 1/2' e 2.77 chains to the east line of said land at a point 21.19 chains south of the north-east corner thereof. Total length of drain wholly upon said land is 22.83 chains.

Thence north 1/4° w upon the line between the last above described land owned by Aaron J. Rayner and the east one-fourth (1/4) of southwest fractional one-fourth (1/4) of said section 18, George P. Faught owner, 11.57 chains to a point 8.82 chains south of the east and west quarter line of said Section 18.

Thence wholly upon the last above described land, owned by George P. Faught. North 29° e 4.46 chs, thence north 1/4° w 4.07 chains to the north line of said land at a point 1.12 chains east of the northwest corner thereof. Total length of drain wholly upon said land is 10.48 chains.

Thence west upon the line between the last above described land, owned by George P. Faught, and the east one-half (1/2) of the northwest fractional one-fourth (1/4) of said section 18, Norman F. Haines, owner, 1.12 chains to the northwest corner of the aforesaid land owned by George P. Faught. Total length of drain upon boundary lines of the aforesaid land owned by George P. Faught is 12.49 chains.

Thence west upon the line between the last above described land owned by Norman F. Haines and the aforesaid west one-half (1/2) of the east one-half (1/2) of southwest fractional one-fourth (1/4) of section 18, Aaron J. Rayner, owner, 9.43 chains, to a point of curve 50 links east of the west line of said lands. Total length of drain upon boundary lines of the aforesaid land owned by Aaron J. Rayner is 20.91 chains.

Thence curve to the right (radius 100 links)

wholly upon the aforesaid land owned by Norman F. Haines 1.57 chains to the west line of said land at a point 100 links north of the southwest corner thereof.

Thence north 1/4° w upon the line between the aforesaid land owned by Norman F. Haines and the southwest fractional one-fourth (1/4) of north-west fractional one-fourth (1/4) of said section 18, Louie Darrow, owner, 18.90 chains. Total length of drain upon boundary lines of the aforesaid land owned by Norman F. Haines is 29.03 chs.

Thence wholly upon the aforesaid east one-half (1/2) of the northwest fractional one-fourth (1/4) of said section 18, Norman F. Haines, owner, north 44° e 8.30 chs, thence north 1/4° e 18.29 chs to the north line of said land and section line at a point 4.08 chs east of the northwest corner of said land. Total length of drain wholly upon said land is 23.16 chs.

Thence upon the east one-half (1/2) of southwest fractional one-fourth (1/4) of said Section 7, Newell VanAuker, owner, north 1/4° e 30 links, thence north 23° 1/2' w 8.45 chs, thence north 1/4° e 2.17 chs, thence north 40° 1/2' w 6 links to the west line of said land at a point 10.18 chs north of the southwest corner thereof.

Thence upon the east 40 acres of the west fractional one-half (1/2) of southwest fractional one-fourth (1/4) of said Section 7, less a parcel of land 40 rods north and south by 20 rods east and west out of the southeast corner thereof, Archie I. Gibbs, owner. north 40° 1/2' w 3.17 chs, thence north 64° w 3.34 chs, thence north 1/4° e 2.04 chs, thence north 56° 5-8" e 5.59 chs, thence north 87° 1/2' e 30 links to the east line of said land at a point 19.13 chains north of the south line of said Section 7. Total length of drain upon said land is 14.44 chs.

Thence upon the aforesaid east one-half (1/2) of the southwest fractional one-fourth (1/4) of said Section 7, Newell VanAuker, owner, north 8° 1/2' e 9.39 chs, thence north 54° 1/2' e 3.34 chs, thence north 43° e 95 links, thence north 3° e 1.33 chs, thence north 61° e 6.12 chs, thence north 6-8" e 6.11 chs to the upper end of said drain upon said land at a point 23.81 chs west and 2.84 chs south of the interior quarter corner of said Section 7. Total length of drain upon said land is 7.87 chs. The total length of said drain is 2 miles 292 rods.

The line above described is the center line of said drain, and the excavations therefor are to be made in equal widths along each side of said center line. Said center line is marked by stakes at the beginning and end thereof, and at each angle and point of curve throughout the course thereof. Grade stakes and witness stakes are set at one side of said center line at the lower end of said drain at each two chains therefrom and at the upper end thereof. Said witness stakes are regularly numbered from the lower end of said drain on and to the upper end thereof.

Said drain is to be constructed with a bottom width of 1 1/2 feet from stake 0 to stake 50, and a bottom width of 1 foot from stake 50 to stake 116 1/2.

Said drain shall be constructed with banks each sloping outward 1 foot for each foot in the rise thereof.

Said drain shall be constructed with the following depths and grades:

Commencing at stake 0 (depth 4.42 feet); thence an ascending grade of .84 feet per 8 rods to stake 20 (depth 3.23 feet); thence a grade of .56 feet per 8 rods to stake 30 (depth 3.34 feet); thence a grade of .13 feet per 8 rods to stake 40 (depth 3.22 feet); thence a grade of .56 feet per 8 rods to stake 45 (depth 3.91 ft); thence a grade of .23 ft per 8 rods to stake 60 (depth 4.31 ft); thence a grade of .55 ft per 8 rods to stake 75 (depth 4.12 ft); thence a grade of .12 ft per 8 rods to stake 80 (depth 3.47 ft); thence a grade of .10 ft per 8 rods to stake 90 (depth 3.32 ft); thence a grade of .55 ft per 8 rods to stake 94 (depth 4.21 ft); thence a grade of .10 ft per 8 rods to stake 103 (depth 4.36 ft); thence a grade of 3.40 feet to stake 108 (depth 3.84 ft); thence a grade of .20 ft per 8 rods to stake 116 1/2 (depth 4.07 ft).

The total fall to said drain is 43.9 ft. The average depth of said drain is 4.04 ft.

The right of way for said drain shall be deemed to include the bottom width, depth, grade and slope of said drain as shown in the foregoing survey, together with a strip of land 33 feet in width along each side of and next adjoining the above described center line for the entire length of said drain, to be used for placing thereon the earth excavated from said drain, or for any other purpose necessary in constructing and maintaining said drain.

Surveyed December 4, 5, 7 and 8th, A. D. 1901. Computed, planned and described January 7 and 8, A. D. 1904.

E. A. GALKIN, Surveyor.

All of the above described main drain, together with the lands benefited thereby and to be assessed therefor, being situated in the township of Leslie, county of Ingham, state of Michigan. The above described drain is marked on and along its center line by grade stakes at equal distances of two chains each and numbered consecutively from No. 0 at the commencement on and to the end thereof, together with angle stakes consecutively numbered in their order from the commencement on and to the last angle of said drain. The above described drain to have an average depth of four feet below the lowest levels of the lands to be drained with a bottom width of two feet, with banks sloping outward at an angle of forty-five degrees (45°), making an average width on top of ten feet in the lowest lands, together with a strip of land ten feet wide next to and adjoining either side of the top of the said proposed drain as constructed its entire length for the purpose of placing the excavations thereof; the grade hubs from which the grade is estimated are placed and driven opposite the regular grade stakes which mark the center line of the said proposed drain. The said hubs are placed and driven upon the right hand side of the drain up to and including grade stake No. 39 and thence to the end of said drain. The hubs are driven upon the left hand side of the drain up to and including grade stake No. 135 which marks the end of the said proposed drain.

The side notes which give the place of entering and leaving each individual parcel and ownership of land, together with the U. S. survey lines, thus clearly define and set forth the particular lands to be taken for the use and purposes of the said proposed drain as defined and set forth by the above survey. The lines and bearings of which are run with reference to the true geographical meridian, the magnetic variation being set off by the vernier of the compass.

The above described line was run May 12th, 13th, and the levels run May 14th, 1922.

JOHN MCCREARY, Surveyor.
