Blue Stone 4.1 ch 6" South 5' lks
" " 6" North 10 1/2 " 4.1 ch. 6" N 70° W 17 1/2 lks

Corners 8 and d and 14, 204 were found from a survey by
Powe in 1899. Corners 3, 13 & 7 were found by vitulages
and measurements. I believe that the stone at
No 4 should be 17 lks further North. I arrived at this
decision by comparison with measurements made by
Powe in 1899 and the fact that he indicated that
the south line of Sec 22 is straight which it is not
having the stone where it now is

STATE OF MICHIGAN, } ss.
COUNTY OF INGHAM,

I, R. J. Robb, County Surveyor of said County,

Do hereby Certify that I did, on the application of
E. J. Sprass

Section 22, in the Township of Mendota, Town 4 North, Range 14
Mar 10, 1899, and the following persons acted as chainmen, first being duly sworn, to-wit:

And I Further Certify that I have compared the foregoing copy with the original minutes made by me at the time of the survey, and that it
is a full and true copy of the minutes of such survey, which minutes give the magnetic variation at the initial point of the survey.

R. J. Robb County Surveyor.
