 SURVEYOR'S NAME _____ SURVEYOR NO. _____
 DATE OF SURVEY _____ SECTION NO. 27 28 33 34
 MAGNETIC VARIATION 12° 30' E.

NOTE: Distances between section corners and section $\frac{1}{4}$ corners are assumed to be 40.00 chs. unless a written distance is indicated.

Distances between $\frac{1}{8}$ corner and either a section corner or a section $\frac{1}{4}$ corner are assumed to be 20.00 chs. unless a written distance is indicated.

Distances to section centers can not be assumed and will not be shown since section centers were not set at this time.

Offsets if given will be indicated by a line perpendicular to the township line with a written distance above or below the line. Offsets will never be assumed and will come hand transcribed directly from our copies of the G.L.O. map.
